

How to participate in 'The Department' livestream call in show

If you want to call the show as a guest, you will need to have the **Podbean app** installed on your mobile device or tablet before trying to join as a guest (Android & iOS versions are freely available for download from the Apple App Store & the Google Play Store). Once you have installed and launched the app, you will be prompted to create a Podbean account (also free). Unlike a radio show where listeners call using a phone, for our Podbean livestream you will use the app to join and participate. Here is a step-by-step guide to that process.

1. Once you have installed the Podbean app and created an account, click the link to the live show you want to join below. Please note that you can only join the livestream via the **Podbean app**. All callers and guests will need to use a headset or external microphone with their mobile device (the combo ear buds/mic will work). See [here](#) for tips on using a microphone.

2. After you enter the live room, click the **phone icon at the bottom** or the **call-in seat on the top** to request to **call in**. You can click the phone icon again to **mute yourself** or **hang up** at any time.

3. **Links to upcoming live shows can be found here:**
